Greater than 20,000 DID Numbers	\$0.75/DID	N/A	
<b>Total Recurring Annual Fees</b>			<b>\$18,000</b>

See billing policies on page 2

### Billing Policies

LCSI's PS/ALI service, ALIProWeb™, will be billed to Customers annually in advance of service and due by the first day of each calendar year of the service period. Nonpayment or delayed payment will place an ALIProWeb™ service account into a pending state and no ALI updates will be processed until payment is received. Invoicing for each calendar year will occur in late November.

ALIProWeb™ service accounts initially created mid-year will be prorated to the end of that year and invoiced accordingly.

The Initial Account Fee includes the cost to migrate ALI records from an existing PS/ALI administrator to a Customer's own NENA Company ID. Any additional ALI number migrations will also incur a cost for each such migration equivalent to the Initial Account Fee. Be sure to include all DID numbers to which you subscribe, when submitting your initial migration list, to avoid future migration fees.
